Education

Delhi Technological University

B.Tech in Computer Science (CGPA: 7.55/10)

2022 – 2026

New Delhi, India

Kendriya Vidyalaya

Higher Senior Secondary (Percentage: 90.6%)

2022

Udaipur, Rajasthan

Shishu Bharti School

Senior Secondary (Percentage: 91.83%)

2020

Udaipur, Rajasthan

Relevant Coursework

Data Structures, Algorithms Analysis, Database Management, Artificial Intelligence, Object Oriented Programming, Operating System, Machine Learning.

Experience

Algoric

June 2025 – August 2025

Frontend Development and Frontend Tester Intern

Remote

- Contributed to building and refining the frontend of the company's website using **Javascript**, **React**, and **Tailwind CSS**.
- Ensured responsive and consistent user experiences through thorough frontend testing and debugging.

Projects

NextContest Portal

[Live Demo](#) — [GitHub](#)

- Built and deployed a full-stack competitive-programming portal (**Next.js**, **tRPC**, **Prisma**, **PostgreSQL**) that aggregates upcoming contests from **Codeforces**, **LeetCode**, **AtCoder** & **CodeChef** with email and calendar-feed reminders; **live in production** on Vercel. Developed the app **AI-assisted with Claude Code** for rapid full-stack iteration and shipping.
- Engineered a **rating-change predictor** by porting Codeforces' Carrot FFT algorithm ($O(N \log N)$, ~25 ms for 30K contestants), reaching **98% of predictions within ± 10** rating.
- Shipped social features — friends, head-to-head compare with AI verdicts (Gemini), and per-contest leaderboards

Otaku World

[Live Demo](#) — [GitHub](#)

- Built a full-stack anime portal using React, Node.js, Express, and MongoDB with Firebase Auth and Jikan API, delivering **50K+ anime** and **200K+ character** records. Used **Stitch** and **Anitgravity** for Creating Responsive Frontend
- Achieved **40% faster load time** and **99.9% uptime** with secure JWT-based access.
- Optimized backend queries and API calls, improving **data fetch speed by 35%** and enhancing overall user responsiveness.

Chat-App

[Live Demo](#) — [GitHub](#)

- Built a full-stack chat app with React, Node.js, and Socket.io, achieving **sub-300 ms latency** and **20% faster message delivery**.
- Integrated MongoDB for **secure, persistent message storage**, maintaining **over 1K chat records** with zero data loss.
- Deployed on Render with **environment-secure configs**, achieving **98% uptime** and supporting **50+ concurrent users**.

LeetCode Contest Rating Predictor

[Live Demo](#) — [GitHub](#)

- Reimplemented LeetCode's Elo rating algorithm using **FFT-accelerated convolution (NumPy/SciPy)**, predicting rating changes for **35K+ contestants** in seconds with $O(N \log N)$ complexity.
- Built a **Cloudflare-resilient crawler** using **curl_cffi** and batched GraphQL alias GraphQL queries, reducing contest data collection time from **35 minutes to 4 minutes**.
- Architected a fully automated pipeline using **GitHub Actions**, **MongoDB Atlas**, **FastAPI**, and **Render**, enabling cron-based prediction generation for every new LeetCode contest.
- Developed a **Dockerized REST API** with API-key authentication, rate limiting, CORS protection, and **19 automated tests** for reliable deployment.

Technical Skills

- **Languages:** C++, JavaScript, TypeScript, HTML5, CSS.
- **Frameworks & Libraries:** React, Next.js, Express.js, Socket.io, Tailwind CSS, Prisma.
- **Databases:** MongoDB, PostgreSQL, Google Firebase
- **Developer Tools:** VS Code, Git, GitHub, Claude Code, Anitgravity, Vercel, Render, Netlify, Postman, Unreal Engine 5.4

Achievements

- Secured an All India Rank of **2715** in **JEE Mains 2022**, with **99.71 percentile**.
- **Codeforces Specialist** (Rating: **1465**), with consistent contest participation and demonstrated strength in core algorithmic and data-structure problems.
- Achieved **Knight** badge on **LeetCode**, currently Rated **1980+** demonstrating strong problem-solving skills.
- Earned the **3-Star** badge on **CodeChef**, demonstrating consistent performance in competitive programming and strong algorithmic problem-solving skills.
